ORDERING INFORMATION VOL. 5, No. 2 Apr/May/June 1985

POSTAGE RATES: Effective 4-1-85 our postage rates are as follows:

We can ship your order one of three ways: UPS, which is fast and inexpensive, but can be delivered to street addresses only [no military addresses or foreign]; fourth class mail, which is inexpensive but sometimes unreliable; and first class mail, which is fast and reliable, but expensive. UPS shipments include insurance; first and fourth class packages can be insured for 50¢. Poster prices include being shipped in a mailing tube.

Rates:	UPS/FOURTH CLASS		FIRST CLASS	
	Orders up to $15	$2.00	Orders up to $10	$2.00
	From $15.01 to $30	$3.00	From $10.01 to $25	$3.00
	From $30.01 to $50	$4.00	From $25.01 to $40	$4.00
	From $50.01 on up	$5.00	From $40.01 on up	$5.00

We will not ship packages fourth class during Xmas season because of the poor reliability of the Postal Service at this time. OVERSEAS CUSTOMERS: Double first class rates for surface mail, x 5 for air mail. You will be issued a credit slip for any overpayment, or billed for underpayment of actual charges.

DISCOUNTS : We offer a 10% discount on orders over $40.00

DELIVERY TIME: We normally ship packages within 48 hours of the time that we receive your order. Orders received on Saturday are processed the following Monday. We do occasionally run out of some items, so please allow four to six weeks for delivery. Checks require two weeks to clear the bank.

If we cannot fill your order within six weeks from the time we receive it, you will automatically be sent a refund for the unshipped items. The only exceptions are: Scripts, which occasionally take up to eight weeks, advance orders (see special listing), and some special orders where we specify an extra amount of time for delivery (this generally only applies to imported items). The only other exception is if you specifically tell us to wait a longer period of time.

ADVANCE ORDERS: We try to list new books and other merchandise ahead of time so that our customers will know what is coming out, and for us to get an idea of how much interst there is in the new item. The dates given are those given by the manufacturer/publisher/supplier, and may not always be completely accurate. Pocket Books, for instance, has released books up to four weeks early OR late from their announced release date. The release dates for British items is the date IN ENGLAND and there is generally a lag of two to four weeks before the merchandise reaches us. As such, if you advance order anything, please allow enough time for the merchandise to reach you. As mentioned above, your order will be refunded if we cannot fill it within six weeks. On advance orders, the six weeks will start in the middle of the advertised month of release. (For instance, if it is advertised as having an August release, your order would be refunded at the end of September if we could not fill it.)

CATALOGS : Anyone who places an order with us will receive catalogs for one year afterward. Catalogs are printed every third month and are shipped by bulk mail, which takes three days to two weeks for delivery. We are constantly expanding and adding new merchandise, so every new catalog is different from earlier ones. Please do not order from old catalogs . Many items are dropped or are sold out, or the prices may change, so if you don't have a current catalog and wish to place an order, just write and we will send one. If you don't want to order anything but want to keep receiveing our catalogs, you can subscribe to four issues (one year) for $3.00.

LETTERS: We are always happy to answer letters requesting information about our products. Please try to be specific in your question in order for us to properly respond. We sometimes get questions like "Can you tell me about your Star Trek books?", which is somewhat hard to answer! So please do try to be specific. Because of postage costs, we do ask that you send an SASE (self-addressed, stamped envelope) for a response. This is not necessary if the letter is being sent with and order.

REFUNDS/CREDIT: On our order blank you are given the choice between a refund or credit for anything that might be sold out or no longer available. If you choose a refund, a check will be sent for the amount you are due. If you wish credit, you will be sent a credit slip for the amount of the sold-out item, and you can use the slip thesame as cash. Credit slips will become void after six months and a refund will be sent on any amount ofer $2.00. No refunds will be made on amounts of $1.00 or less - a credit slip will be issued. Credit slips over $1 can be converted to cash at any time.

RETURNS/CHANGES IN ORDERS: No returns will be accepted unless specifically approved in writing in advance. ALWAYS write before returning something, as we may be able to rectify the situation without your going through the bother of mailing something back. We will refund your postage expenses for anything you have to return, in your choice of cash or credit.

Changes in orders: We really don't mind if you advance order something and decide to change the order to something else, as long as the number of changes are kept within reason. Each time a change is made it means a certain amount of bookwork for us, so if we are asked to change an order an undue amount of times, we will, at our discression, charge a $5.00 accounting fee.

IMPORTED ITEMS: Whenever possible we try to import many of our British products directly from England, rather than buying from an American supplier at a much higher price. This not only keeps down the price, but allows us to obtain many items not sold by any other dealer. However, as a general rule, British suppliers are EXTREMELY slow to fill our orders. So while every possible effort is made to keep all imported items in stock, it is not always possible because of the length of time it takes our reorders to reach us. If possible, please allow extra time for delivery of these items.

OTHER: Please be sure to use the order form provided with the catalog. we will send you more forms with your order. It is very important that you write legibly and provide all the required information. Always advise us of any address changes so that you will continue receiving catalogs. The Post Office does not forward bulk mail.

When sending a letter with your order, please place the letter on a separate sheet with your name and address on both sheets. This will help us process your order faster, as well as eliminate any potential mistakes on our part by missing something on your order.

Bad checks will result in a $5 accounting fee or removal from our mailing list.

DOCTOR WHO

Your Tardis has just materialized on the lawn of the White House in the year 1945. Nowhere do you see the stars and stripes, but in their place are red flags emblazoned with a peculiar crooked cross. Suddenly you realize what the problem is when 5 Daleks descend the steps of the White House. With them is a short man wearing a brown shirt with a red armband bearing the same crooked cross symbol.

Only in the world of Doctor Who could such an adventure take place. Now FASA, takes you to this world of excitement and wonder with the Doctor Who Role-Playing Game. Each game includes:

The Players Handbook

This easy-to-read book describes how to set up your Timelord character and companions. Also included are sections on how to play your characters and develop them.

The APC Net

This book contains a time line and a history of the universe as set forth in the TV series. Complete descriptions of the major races and of Gallifrey also is included.

The Gamemasters Guidebook

This book has all the information required to run the game and create the monsters and aliens to be encountered. A detailed section on how to create adventures for the Timelords and their companions is provided. $15.00

FLASH--DR. WHO CANCELLED

IC has just learned that only five more episodes of the Dr. Who television show will be produced. The producers have announced an 18 month hiatus in production. Observers note, however, that the cancellation of Blake 7 was also originally announced as a production "hiatus." The production of licensed material for North American markets, such as the Target paperbacks and the Marvel UK comic will probably also be halted.

We now have confirmation of the rumors that have been circulating sin Febuary - Dr. Who HAS been canceled in England. The official reason from BBC controller Michael Grade is a lack of money. This is pure nonsense as the network is raking in huge sums of money from this country between the show being rerun and from merchandising. Regard- less of the reason, we do reccomend that you write to the BBC if you wish to see the show continued. All letters should be legible, polit and firm. Send your letters to: Michael Grade, BBC-TV, Woodlands, 80 Wood Lane, London W12 OTT, England. A ½ ounce letter costs 44¢ for a mail postage.

Audio Tapes

All recordings are on high quality Sony or TDK tape and each has a rating as to sound quality. Excellent (E)=very good sound, Good (G)=some minor defects, and Fair (F)=substandard sound, offered occasionally when we have been unable to locate better copies. Please inquire as to availability on tapes marked "*", as these are unavailable at the time the catalog was printed, but should become available sometime in the future. Tapes marked "n" use a new process of being taped from a stereo video recorder directly into an equalizer and into an Akai tape deck, resulting in great sound quality! We are taping most of our tapes with this excellent method as the originals become available.

We can also custom record <u>any</u> two 1-hour episodes on a 120 minute cassette for $8.00 for those of you who desire different combinations of episodes than are listed in the catalog.

Prices:Unless otherwise noted, all tapes are $8.00 each!

If you are custom ordering two one hour episodes, please give the numbers for <u>both</u>.
